

Instructions for using the transport module cmd app

The main menu is:

```
=====
Welcome to the Transport Module!
Please select an option:
1. Manage transports
2. Manage item lists
3. Manage transport module resources
4. Exit
>>
```

We use an intuitive multiple choice menu for reaching all the app's functionality. in order to enter a menu, enter the number and click enter.

The menus for managing transports and item lists are available from the main menu. however, in order to reach the menus to manage sites, drivers and trucks you will need to go into the "Manage transport module resources" menu, which will reveal further menus which are nearly identical to the other managing menus:

There are explanations printed in place for every functionality that requires user input.

```
Transport module resources management
Please select an option:
1. Manage sites
2. Manage drivers
3. Manage trucks
4. Return to main menu
>> |
```

Data present in the system when launching:

```
